# Why Support DBA Canada??

Diamond Blackfan Anemia Canada is currently the only Canadian foundation available to support families and individuals affected by DBA. It is our goal to provide a support network for families and individuals, to increase the awareness of DBA within the health care system and the general public and of course to raise funds so that we may one day find a cure!

## DBA "Quick" Facts

-  Affects 7 in every 1,000,000 births
-  Characterized by severe infant anemia that without treatment would be fatal
-  47% of DBA patients are born with 1 or more congenital anomalies (birth defects)

**DBAC** Diamond Blackfan  
Anemia Canada

If not for all of those reasons....do it for **ANDIE!!!**
